## K-2 Primary School Online Learning Portfolio

Duffy Primary School uses an online application called **Google Slides** to create a learning portfolio for your child. Google applications are secure online learning tools available for educators and students to create, upload and share student learning instantly.

To effectively share the social learning in Primary School, we are asking for your permission to take and use photos of your child while using their first name to create these learning portfolios. Your child's first name and photo may be included in other children's portfolios also. Examples of photos might be of completed work, active learning, co-operative play, school events and excursions. These would also be used to capture connections and friendships that your child has developed throughout the year. We encourage you to engage with and respond to your child's learning portfolio as a way of strengthening our home/school connection.

An invitation to your child's learning portfolio will be sent to the email provided.

If you do not wish to have access to your child's learning portfolio online you will be provided with a book, displaying this in printed form.

**We aim to activate learning Portfolios on Tuesday 10 September. Please return the below permission slip to your child's classroom teacher by Monday 9 September.**

If you have any further questions or concerns, please contact Casey Langler, P-2 Executive Teacher, on 6214 2510.
