

IAQ Map Legend - Winter Operation

- Natural ventilation: Operable windows and/or louvres should be used to manage fresh air, balancing thermal comfort and ventilation.
- Mechanical ventilation: Fresh air is introduced by the heating, ventilation and air conditioning system when in operation. Windows can remain closed and no action is required by the school.
- Minimise use of this space. Ventilation improvements are currently being scoped or implemented.

Note: White spaces are to be used in accordance with COVID-19 requirements and current health advice.
