Primary School Online Learning Portfolio

Duffy Primary School uses an online application called **Google Slides (P-2)** and **Google Sites (3-6)** to create a learning portfolio for your child. Google applications are secure online learning tools available for educators and students to create, upload and share student learning instantly.

To effectively share our learning in Primary School we will use our online platforms. Photos of your child and their first name will be used to create these learning portfolios. As we work collaboratively here at Duffy, your child's first name and photo may be included in other children's portfolios. Examples of photos might be of completed work, active learning, co-operative play, school events and excursions. These would also be used to capture connections and friendships that your child has developed throughout the year. We encourage you to engage with and respond to your child's learning portfolio as a way of strengthening our home and school partnership.

We will share your child's learning portfolio to the email currently on file. If your email address has changed please provide us with the updated email below.

If you require your child's learning portfolio to be printed, please indicate below.

If you have any further questions or concerns, please contact Casey Langer, P-2 Executive Teacher on 6142 2510.

Primary School Online Learning Portfolio

Please return to school by Monday 10 May 2021

Child's Name: _____ Class: _____
