Seesaw Online Learning Portfolio and Communication app

Duffy Primary School uses the application Seesaw to create a learning portfolio for your child throughout their schooling. This platform is a secure online learning tool available for educators and students to create, upload and share student learning instantly. Families also have the opportunity to comment on and respond to their child's learning.

Photos and videos of your child and their first name will be used to create these learning portfolios. As we work collaboratively here at Duffy, your child's first name and photo/video may be included in other children's portfolios. Examples of photos/videos might be of completed work, active learning, cooperative play, school events and excursions. These would also be used to capture connections and friendships that your child has developed throughout the year. We encourage you to engage with and respond to your child's learning as a way of strengthening our home and school partnership.

If you have any further questions or concerns, please contact the front office on 6142 2510.

Seesaw Online Learning Portfolio and communication**Please return to school as soon as possible**

Please tick as appropriate:

- ☐ **I give permission** for my child/ren to access the Seesaw platform to create and upload their learning. This permission will roll over each year unless we are contacted and informed of a change.
